

Jeep

J E E P[®] G R A N D C H E R O K E E

/ MASTER OF THE ROAD /

Discover the ultimate driving experience with the most awarded SUV ever*. With its perfect blend of elegance and power, the Jeep® Grand Cherokee shows you the world through its unique style and character. From sophisticated urban drives to extreme off-road adventures. And now with a new expanded range including the Trailhawk and Night Eagle. Every road will be yours.

*Claims relates to Grand Cherokee nameplate over its life time.

/ AUTHENTIC MASTERPIECE /

From the Limited Plus to the superior refinement of the Summit, elegance and functionality are perfectly balanced. The Jeep® Grand Cherokee comes with a wide range of hand crafted, exclusive interior options including open pore wood appliqué and leather wrapped seats and dashboard.

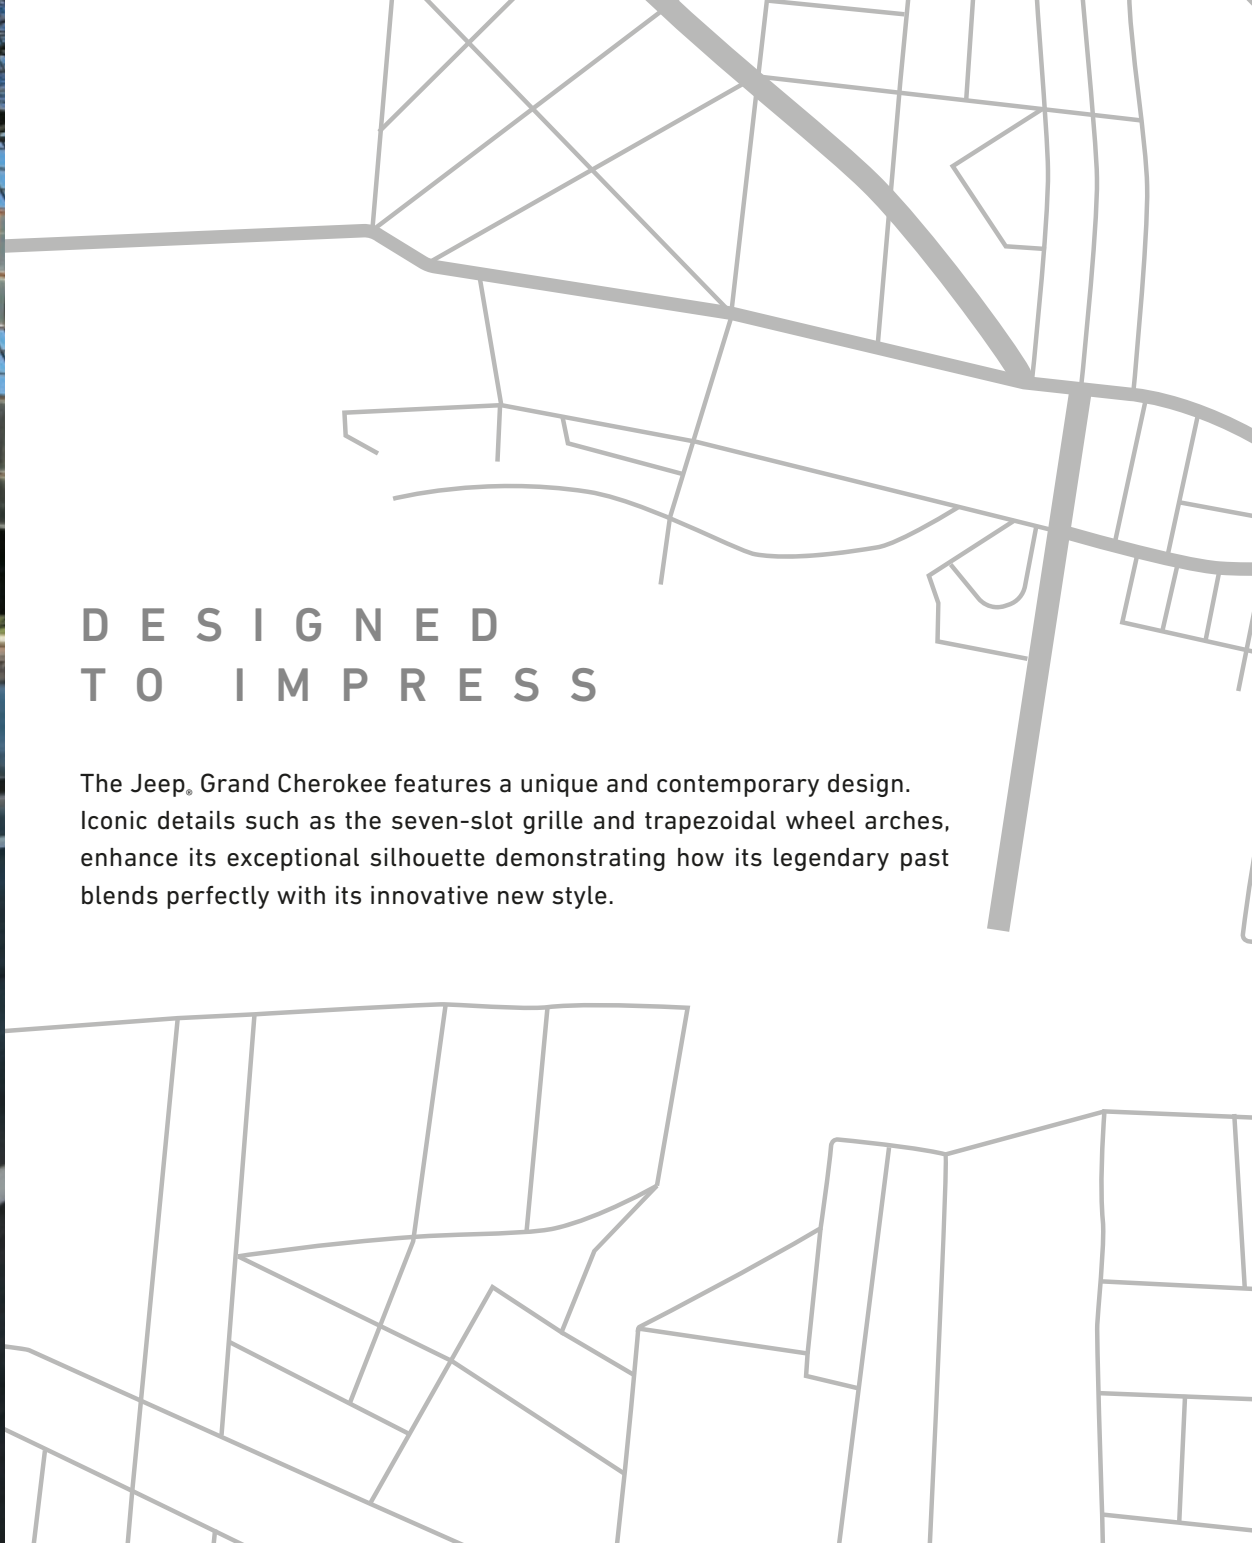

Jeep

GRAND CHEROKEE

D E S I G N E D T O I M P R E S S

The Jeep® Grand Cherokee features a unique and contemporary design. Iconic details such as the seven-slot grille and trapezoidal wheel arches, enhance its exceptional silhouette demonstrating how its legendary past blends perfectly with its innovative new style.

THE ART
OF BEAUTY
IN EVERY
DETAIL

Refinement is evident in every detail. Sky Grey Laguna leather trim is available on the Summit with leather seats, front and rear door armrests and console lid. The interior is completed with premium accents and high gloss open pore black wood appliqué. Also available is the Command View dual-pane panoramic sunroof which features a power sliding glass front panel and power sunshade.

A N E X E C U T I V E - C L A S S I N T E R I O R

An extensive range of interiors and finishing are represented on the Summit and Overland trim, featuring a leather wrapped dashboard, wooden fascia and leather seat combinations. To improve your driving experience the innovative Active Noise Cancellation system detects and eliminates all engine noise inside the vehicle by emitting opposing sound waves. In addition a nine-speaker 825 Watt, 19 Green Edge speakers Harman Kardon Audio system is standard on Summit trim.

Technology on board has evolved, everything is under control with the Uconnect™ 8.4" Smartouch system with live services which features Bluetooth® connectivity, streaming audio and voice command. The system also includes USB port, DAB Radio and premium navigation with 3D graphics. Uconnect™ Live App gives access to TuneIn radios, Deezer music, Facebook Check In, Twitter, Reuters and Tom Tom Live with real time information on your journey.

AUTHENTIC JEEP® CAPABILITY

The Jeep® Grand Cherokee comes with a choice of two different 4x4 traction systems, available air suspension, class-leading Selec-Terrain™, the efficient 8-speed automatic transmission and the 3.0L V6 MultiJet II Diesel engine - available with 250 hp.

QUADRA-LIFT AIR SUSPENSION SYSTEM

/ QUADRA-TRAC II® 4X4

The Quadra-Trac II® 4x4 system features a two-speed transfer case that uses input from a variety of sensors in order to determine tyre slip at the earliest possible moment and take corrective action. When tyre slippage is detected, up to 100% of the available torque is instantly routed to the axle with the most traction.

Standard on Limited Plus and Night Eagle

/ QUADRA-DRIVE® II 4X4 WITH REAR ELSD

The definitive system for capability, the Quadra-Drive® II 4x4 system with rear electronic limited slip differential, delivers superior all-weather traction alongside the legendary Jeep® vehicle off-road capability.

Standard on Trailhawk, Overland and Summit

/ QUADRA-LIFT® AIR SUSPENSION SYSTEM

This system gives total control over suspension by raising the vehicle's ground clearance up to 60 mm higher than its standard setting. It can also be reduced by 40 mm for easy entry, exit and loading. The system will raise the vehicle from back to front to help keep headlights focused on the road.

Standard on Trailhawk, Overland and Summit

DRIVEN BY INTELLIGENT CHOICES

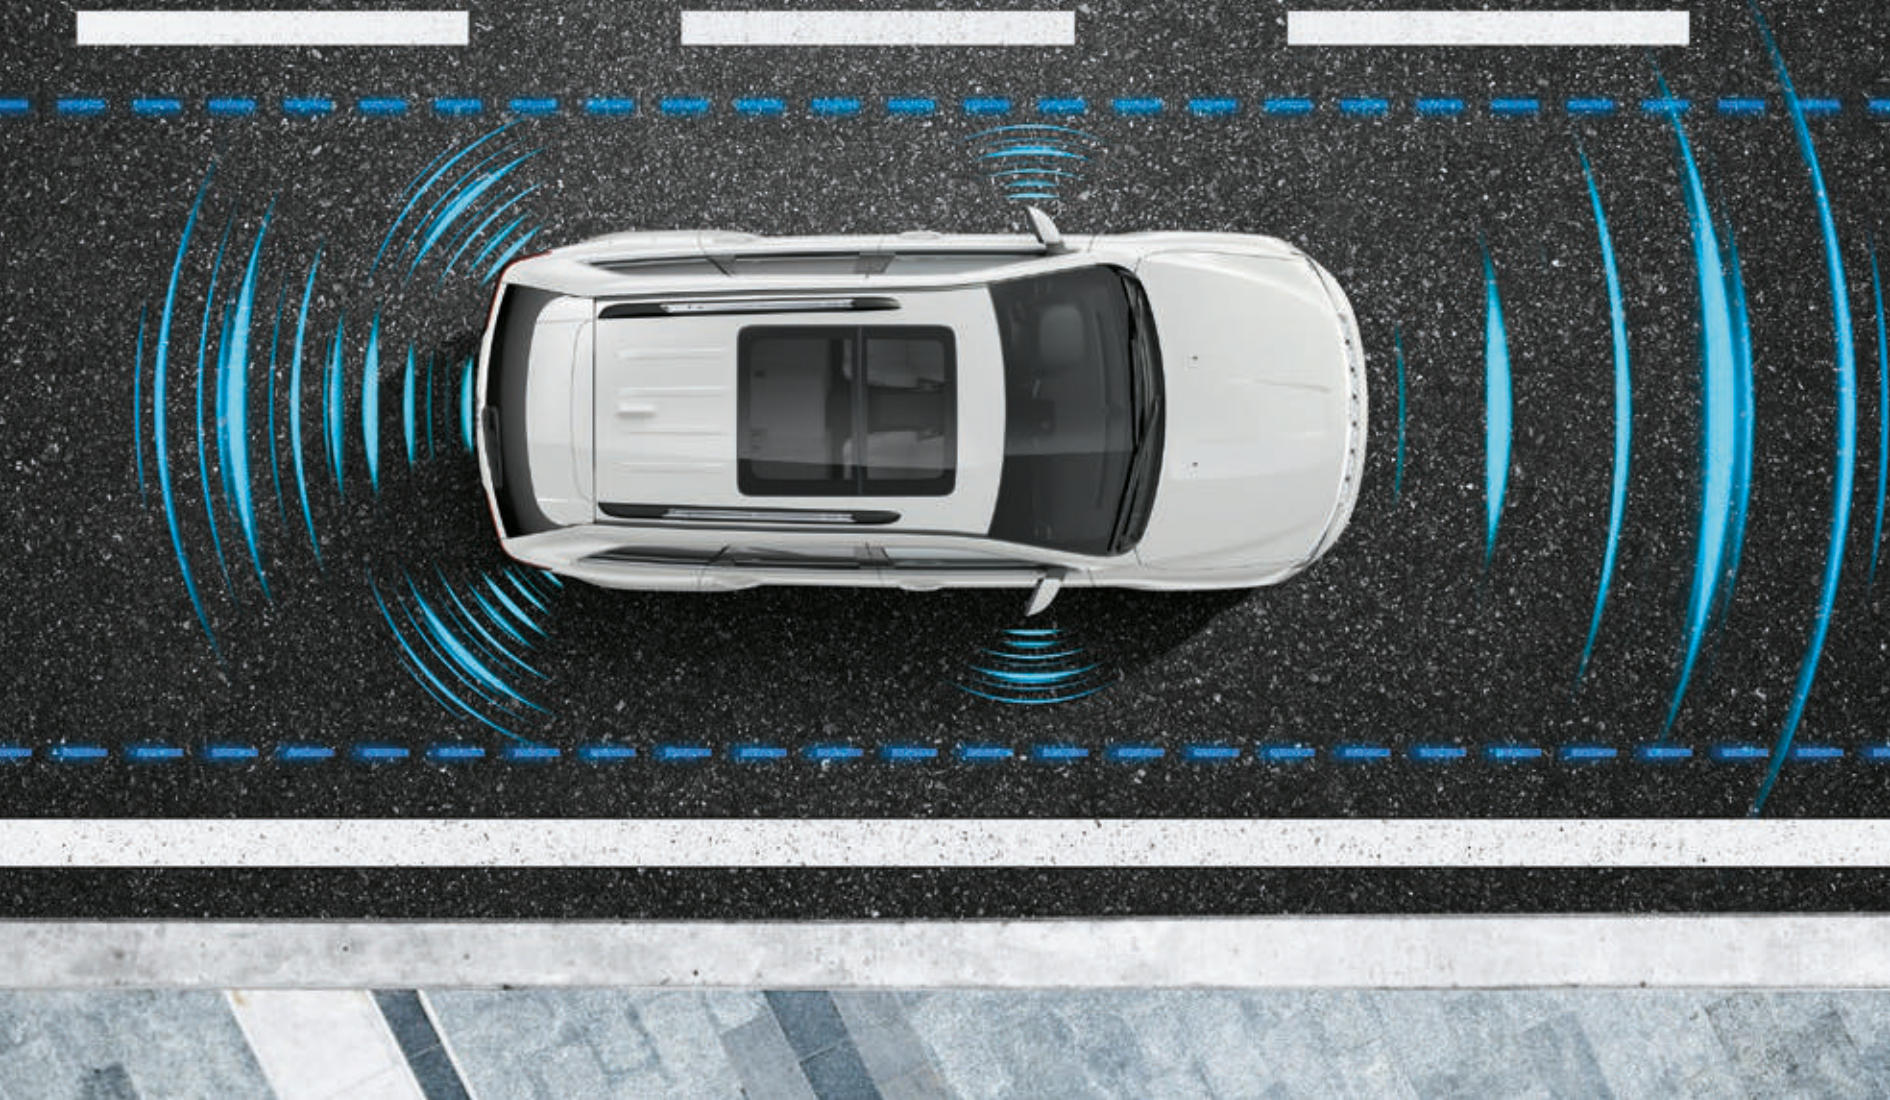

/ SELEC-TERRAIN™ TRACTION SYSTEM

The Selec-Terrain™ system adapts traction performance with the use of a dial allowing you to select between Snow, Sand, Auto, Mud and Rock settings. It gives ultimate driving confidence by co-ordinating 12 vehicle systems, including throttle control, transmission shifting, transfer case, traction control and Electronic Stability Control (ESC).

SENSORY SURROUND

/ IT KNOWS WHAT YOU NEED BEFORE YOU ASK /

/ LANESENSE® DEPARTURE WARNING PLUS

The system provides a visual and audible warning, plus the additional feedback of torque applied to the steering wheel should the vehicle drift outside of the lane boundaries.

/ BLIND SPOT MONITORING AND REAR CROSS PATH DETECTION

The space between the Jeep® Grand Cherokee and other vehicles is monitored when a side or rear blind spot is encroached on, illuminated icons on the wing mirrors or an audible chime is activated.

/ ADAPTIVE CRUISE CONTROL WITH STOP

It automatically adjusts cruising speed to maintain a preset distance between you and the vehicle ahead and can bring the Grand Cherokee to a complete stop without driver intervention to help avoid or mitigate a collision.

/ FORWARD COLLISION WARNING PLUS

The sensors detect when the Grand Cherokee may be approaching another vehicle too rapidly and send an audible and visual alert to the driver along with providing brake assistance if the driver doesn't react in time to help avoid or mitigate a collision.

/ PARKVIEW® REAR BACK-UP CAMERA

This system helps bring previously hidden rear objects to your attention, either on-screen or with an audible warning, giving you plenty of time to react. When in reverse, the on-screen image includes a dynamic distance grid to help gauge your rear perimeter.

/ PARALLEL AND PERPENDICULAR PARK ASSIST

This active guiding system is available to automatically control steering using ultrasonic sensors that help you ease into parking spots. Includes ParkSense® front and rear park assist sensors.

/ PARKSENSE® FRONT AND REAR PARK ASSIST SYSTEM

This function helps you manoeuvre into parking spots by detecting objects in front of the vehicle and providing an audible warning when your proximity is too close for comfort for you and other drivers. When a side or rear blind spot is encroached, you're notified via illuminated icons on your wing mirrors or by an audible warning. The rear Stop function (selectable) helps utilise autonomous braking and will stop the vehicle at speeds lower than 7 mph.

Y E A R N F O R R E A L A D V E N T U R E

The Jeep® Grand Cherokee Trailhawk shows an aggressive appearance with intrinsic strength and superior off-road capabilities. The rugged character is enhanced by specific features such as the badges with red accents, a black anti-glare bonnet decal, mirror caps and roof rails with neutral grey accents. The standard 18" Goodyear adventure off-road tyres with Kevlar reinforcement, skid plates and Quadra Drive II 4X4 system let you drive wherever you desire. Inside it features distinctive leather and suede-trimmed performance seats, striking red stitching and an 8.4" Uconnect™ touchscreen system.

/GRAND CHEROKEE TRAILHAWK

The Jeep® Grand Cherokee Trailhawk boasts an undisputed off-road capability with the Trail Rated badge, tested on some of the toughest trails on the planet, including Rubicon and the Moab Desert. To earn the Trail Rated® badge, it had to go through five different challenging tests: Traction, Manoeuvrability, Articulation, Water Fording and Ground Clearance.
