The BMW 330e Sport Pro Saloon model is shown above in Mineral White metallic paint. ^ = Dependent on the local electricity infrastructure. Charging time corresponds to a charge of 80% of maximum capacity and based on a single-phase supply current of max 32A. * = For Plug-in Hybrid Electric Vehicles these figures were obtained using a combination of battery power and fuel. Plug-in Hybrid Electric Vehicles require mains electricity for charging. Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. The CO₂ figures have been determined according to the WLTP test. WLTP has been used as the applicable CO₂ figure from 1 April 2020 for first year vehicle tax (VED) and from 6 April 2020 for company car tax (BIK). The CO₂ figures were previously based on the NEDC equivalent. Figures in () apply to cars with automatic transmission. Insurance group figures refer to 50 Group Rating System.

Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. The CO₂ figures have been determined according to the WLTP test. WLTP has been used as the applicable CO₂ figure from 1 April 2020 for first year vehicle tax (VED) and from 6 April 2020 for company car tax (BIK). The CO₂ figures were previously based on the NEDC equivalent. Figures in () apply to cars with automatic transmission. Insurance group figures refer to 50 Group Rating System.

BMW PAY MONTHLY SERVICING & TRACKSTAR.

SERVICING MADE SIMPLE.

Planning for the road ahead has never been easier. With the BMW Pay Monthly Service Plan¹ you can remove the uncertainty often associated with car servicing costs by spreading them monthly, much like you would your household bills. Our Pay Monthly service plan covers two services and any unused credit can be transferred to another BMW if you decide to switch unexpectedly. As part of the Pay Monthly plan you will also receive a number of added extras including:

- Fluid top ups
- An MOT
- A Wash & Vac each time you visit
- Seasonal health checks
- Sat Nav Map updates

Get the quality service and parts you expect from BMW with a fixed monthly payment. Give your BMW the care and attention it deserves from the experts that made it.

Price: £25 per month for 36 months

Please contact your preferred BMW Centre for further information.

BMW TRACKSTAR.

Locate and recover your vehicle if it is stolen with BMW Trackstar or BMW Trackstar Advance. Benefits include:

- 24/7 Trackstar Monitoring Centre
- Thatcham accredited
- Integrated motion sensor
- Pan-European protection

BMW Trackstar S7 price from: £399²

BMW Trackstar S5 price from £549²

BMW Trackstar S5 Advance price from: £649²

¹ = Participating BMW Centres only. Two services must be claimed within four years or 40,000 miles, whichever occurs soonest. ² = Price excludes subscription. Please consult your preferred BMW Centre for further details. Content correct at time of publishing. Prices subject to change.

BMW CONNECTED DRIVE SERVICES.

BMW ConnectedDrive keeps driver and vehicle connected with the outside world. Digital services, driver-focused technologies and driver assistance systems provide more comfort, more entertainment and more safety. Increase your driving pleasure – with BMW ConnectedDrive.

GENERAL INFORMATION

BMW (UK) Ltd, Summit ONE, Summit Avenue, Farnborough, Hampshire, GU14 0FB (hereinafter referred to as "BMW") provides the customer with certain vehicle-related information and assistance functions (hereinafter called "Services") under the name of "BMW ConnectedDrive". BMW collects, stores or processes car-related data in compliance with applicable law and only to the extent necessary to provide the Services. BMW does not collect, store or process personal data in course of the Services – except where this is explicitly stated in the service description of the individual Services. In the case of Services that require personal data to be collected, stored and processed so that such Services can actually be provided, BMW informs customers of this in advance by providing this data protection notice. The Services are provided by means of a SIM card installed in the vehicle.

DEACTIVATION

You can have the BMW ConnectedDrive services deactivated through an authorised BMW centre, a BMW subsidiary or a BMW authorised workshop at any time. This also has the consequence that aspects of the emergency call in the vehicle as well as all remaining Services will no longer function.

You can additionally arrange for the remaining Services to be deactivated via "My BMW ConnectedDrive".

If the vehicle is equipped with the legally required EU Emergency Call (as from April 2018) a deactivation of the BMW ConnectedDrive basic services will not deactivate the vehicle's built-in SIM card. It has to remain active, so that the EU Emergency Call is functional all the time.

Services that are available and active without runtime limitations, cannot be guaranteed for permanent usage due to potential future technical developments (of the Service availability and/or Smartphone compatibility/operating systems).
